INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

RLL-322WO ACTION as well as, where applicable, item 5 below. International application No. International filing date (day/month/year) (Earliest) Priority Date (day/month/year) PCT/IB2004/000842 22/03/2004 Applicant RANEAXY LABORATORIES LIMITED This International Search Report has been prepared by this international Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This International Search Report consists of a total of 5 sheets. It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the infernational search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnities Authority (Flue 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box files. Linity of invention is lacking (see Box III). 4. With regard to the title, Ithe text is approved as submitted by the applicant. X the text is approved as submitted by the Authority to read as follows: COMBINATION THERAPY FOR LOWER URINARY TRACT SYMPTOMS	
PCT/IB2004/000842 22/03/2004 Applicant RANBAXY LABORATORIES LIMITED This international Search Report has been prepared by this international Searching Authority and is transmitted to the applicant according to Article 18. It is also accompanied by a copy of each prior art document clied in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnish Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box II. Certain claims were found unsearchable (See Box III). 4. With regard to the title, the text is approved as submitted by the applicant. X the text has been established by this Authority to read as follows:	
1. Basis of the report 2. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnish this Authority (Rule 23.1(b)). D. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box 1. Certain claims were found unsearchable (See Box II). Unity of invention is tacking (see Box III). With regard to the title, the text is approved as submitted by the applicant. Ithe text has been established by this Authority to read as follows:	
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box II. Certain claims were found unsearchable (See Box II). Unity of invention is lacking (see Box III). With regard to the title, the text is approved as submitted by the applicant. X the text has been established by this Authority to read as follows:

2. X Certain claims were found unsearchable (See Box II). 3. Unity of invention is lacking (see Box III). 4. With regard to the title, the text is approved as submitted by the applicant. X the text has been established by this Authority to read as follows:	lo. f.
3. Linity of invention is lacking (see Box III). 4. With regard to the title, the text is approved as submitted by the applicant. X the text has been established by this Authority to read as follows:	7.1.1.
4. With regard to the title, the text is approved as submitted by the applicant. The text has been established by this Authority to read as follows:	
the text is approved as submitted by the applicant. The text has been established by this Authority to read as follows:	
the text is approved as submitted by the applicant. The text has been established by this Authority to read as follows:	
ithe text has been established by this Authority to read as follows:	
5. With regard to the abstract,	
the text is approved as submitted by the applicant.	
the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicationary, within one month from the date of mailing of this international search report, submit comments to this Authority.	.t V~
5. With regard to the drawings,	
a. the figure of the drawings to be published with the abstract is Figure No.	
as suggested by the applicant.	
as selected by this Authority, because the applicant failed to suggest a figure.	
as selected by this Authority, because this figure better characterizes the invention.	
b. none of the figures is to be published with the abstract.

International Application No

PCT/IB2004/000842

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 A61K31/496 A61K31/216 A61P13/08

According to International Patent Classification (IPC) or to both national classification and tPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) IPC 7 A61K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, PAJ, CHEM ABS Data, EMBASE, MEDLINE

Category "	Gilation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	EP 1 123 705 A (PFIZER PRODUCTS INC) 16 August 2001 (2001-08-16) the whole document	1-28
Y	WO 02/44151 A (ANAND NITYA ; CHUGH ANITA (IN); JAIN SANJAY (IN); SINHA NEELIMA (IN);) 6 June 2002 (2002-06-06) claims 1-8 page 4, line 7 - line 20	1-28
Y	WO 01/21167 A (MERCK & CO., INC; STONER, ELIZABETH; DRAKE, PAUL, J; BACH, MARK, A) 29 March 2001 (2001-03-29) cited in the application claims 1-36	1-28

X Further documents are listed in the continuation of box C.	Paten family members are listed in annex.
* Special categories of cited documents: *A* document defining the general state of the lart which is not considered to be of particular relevance. *E* earlier document but published on or after the international filing date. *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified). *O* document referring to an oral disclosure, use, exhibition or other means. *P* document published prior to the international filing date but later than the priority date claimed.	 'T' later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory, underlying the invention 'X' document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone. 'Y' document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combined with one or more other such documents, such combination being obvious to a person skilled in the art. '8' document member of the same patent family

International application No. PCT/IB2004/000842

INTERNATIONAL SEARCH REPORT

Box II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This Inte	emational Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. χ	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
	Although claims 11-27 are directed to a method of treatment of the human/animal body, the search has been carried out and based on the alleged effects of the compound/composition.
2.	Claims Nos:: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
з. 🔲	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Inte	ernational Searching Authority found multiple inventions in this international application, as follows:
t.	As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3.	As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4, .	No required additional search fees were timely paid by the applicant. Consequently, this international Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark	on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.
